My name is Karalyn Peterson. For the past 10 years I have been working at Midstate Independent Living where I have learned about disabilities in general and how to be an advocate for people with disabilities.

I have a passion for people with disabilities because when I was 17 years old, I was involved in an automobile accident and was disabled. Transportation in particular is very close to my heart because I have experienced the effects; both positive and negative, that it can have on a person's quality of life. I used Stevens Point Transit myself up until 1 ½ years ago. Having a reliable public transportation system was a huge part of my life for quite a while.

I believe transportation is a large contributor to success a person feeling independent; with or without a disability.
