Mayor Andrew Halverson called the Special Board of Public Works meeting to order on August 18, 2014 at 6:15 P.M. The meeting was held at the County/City Building in the Council Chambers at 1516 Church Street in Stevens Point, WI 54481.

1. Consideration and possible action to award the Rocky Run Bridge Deck Epoxy Overlay Project #14-09.

Mayor Halverson explained that this is the item that was discussed at the Board of Public Works last week.

Mayor Halverson moved approval of awarding the Epoxy Overlay Bid to Fahrner Asphalt Sealers LLC in the amount of \$37,802.51 plus a 15% contingency excluding the supplemental traffic control; seconded by C/T Ladick.

Aldersperson Patton asked what kind of guarantee the epoxy overlay has. Mayor Halverson believed is an access of 10 years from what he could recall discussing it with Director Schatschneider. Mayor Halverson added that it is a longer time than a standard chip seal and significantly stronger and is on most of the bridges you drive over.

Aldersperson Trzebiatowski asked if this is similar to what they use on the interstate and highway systems as an antiskid. Mayor Halverson said it is very similar to it.

Aldersperson Phillips asked why he was excluding the supplemental traffic control. Mayor Halverson said he feels the traffic control amount is excessive at over 7 thousand dollars and he feels we can work with the county or we can do it internally to arrange for traffic control.

Aldersperson Stroik asked how long this takes and if the bridge would have to be totally shut down. Mayor Halverson is hoping they will only shut down one lane at a time but it will have to be worked out with the county given the road is a county highway and the bridge only serves only townships.

Ayes all; nays none; motion carried

- 2. ADJOURNMENT: Mayor Andrew Halverson adjourned the August 18, 2014 Special Board of Public Works Meeting at 6:18 P.M.**
