- 
1. Bicycle ride to analyze north/south and east/west bicycle and pedestrian routes.

**Group completed a 9 mile ride on east/west and north/south streets in Stevens Point to assess traffic flow, street width, traffic and bicycle speeds, etc. The group discussed bike lanes and urban shoulders, cycling on sidewalks, and the possibility of pursuing a grant to help fund safe routes to schools. No decisions were made. Information about cycling on sidewalks can be found at:**
