Tourism Commission	Carie Winn	624 Soo Marie Avenue	1yr	4/30/2019

Lynn Schulist

Mayor Wiza, Thank you for considering me for my interest to be on: The Board of Review and Board of Appeals for the Stevens Point City Government. Below is some experience and background information and the reason why I would like to get involved. Thanks, Lynn Lynn M. Schulist 408 Glennon Ave Stevens Point, WI 54481 Education: B.A. Family and Consumer Sciences, UWSP MBA, University of Liverpool Previous Board and Committee Experience: Community Weight Room Steering Committee (appointed by Rosholt School District Administration) Treasurer and Founding Member of Rosholt Youth Baseball Treasurer Rosholt Youth Football Volunteer Experience: Junior Achievement (Stevens Point and Rosholt) Various Youth Sports Organizations and Booster Clubs Special Olympics Event Volunteer Interested in Serving on: Board of Review Board of Appeals As a young professional, homeowner and resident of Stevens Point I would like to be involved with our local government. Serving our community in the capacity of local government is important to me and I feel the city would benefit from more involvement and representation from young professionals in our community. I would like to step up and fill this gap. Some who do not know me may ask "Why would I want to get involved in local government now?" Before moving to Stevens Point, I lived in the Town of Bevent where my Father served on the town board for 11 years. Therefore, I sought other areas within the Rosholt/Bevent community to serve. As my experience states, I spent many hours starting from the ground up, with 3 other parents, a Little League Baseball program that the Rosholt Community never had. We made this program low cost (no cost for low income families) which provided area children 'something to keep them busy' during the summer months. For many in the community, driving their children to Stevens Point or Iola for youth sports was not an option. This was open to both boys and girls to participate. We had 50 kids participate in our 2nd season! This program is still going strong today. I was appointed by the Rosholt District Administrator to a Steering Committee to plan, gain School Board approval, fundraise and obtain community input to enhance/expand the Rosholt School District Weight Room and Cardio area and open it up to District residents (free of charge) due to the lack of any similar facility within a 15-mile radius. Many community members take advantage of this today to help them 'stay active', including many low-income residents. I created presentations and presented to the School Board, fundraised, worked with District Administration on obtaining insurance and security 'key fobs'. I served on the Rosholt Youth Football Board as Treasurer to manage finances in addition to our board collaboratively putting on a "Pig Skin Pig Roast" for 2-consecutive years which raised \$10,000 at each event (\$20,000 total). Our organization at the time did additional fundraising for donations to purchase a new scoreboard (the previous scoreboard was over 40 years old) for our Football field. Rosholt Youth Football also donated to other community organizations in the Rosholt area as well. Additionally, fundraised and volunteered for baseball and basketball organizations and booster clubs that my son is a part of in Stevens Point. I would like to bring my commitment to community and community involvement to the Stevens Point government. Thank you for your consideration. Lynn M Schulist

General Contractor
Origin Family Homebuilders

After graduating from Rosholt High School in 2003, I pursued an education in Communications and Marketing, taking classes at both UWSP and UWEC. I completed a degree program in Mass Communication with a minor in Marketing from UWEC in December of 2007. In the 11 years since graduating college I have had opportunities to work in a variety of fields, including kitchen design, advertising sales, and digital merchandising and marketing. I spent several of my post-collegiate years living and working in Madison, but found myself back in Stevens Point in 2016 to join my parents in operating our family's small home building business. I am currently a licensed general contractor and oversee new residential and remodel projects. As a young professional with experience in the housing and building arenas, I bring a unique knowledge of the economics of the building construction in conjunction with a strong connection to the ongoing changes and developments of the Stevens Point housing market. I am a lifelong resident of Wisconsin with roots in the Stevens Point area, but have had the opportunity to gain knowledge, experience, and perspective from outside Portage County. I look forward to using my previous experiences to help the Stevens Point community continue to be a safe, accessible, diverse, and desirable place to live, work, and play.

Pete Arntsen moved to Stevens Point in 1982 after enrolling at the University of Wisconsin-Stevens Point, and he has lived in the City ever since. Graduating with Bachelor's and Master's Degrees in Water Resources from the College of Natural Resources, he went to work as a hydrogeologist for a civil engineering firm in Weston. In 2009, Pete joined Sand Creek Consultants, in Amherst, where he continues work as a private sector environmental scientist on projects that include investigation and remediation of environmental contamination, solid and liquid waste management, hydrologic and geologic evaluations, and wetland identification and delineation. He is a Licensed Professional Hydrologist and a Licensed Professional Geologist. For relaxation, Pete enjoys fishing and managing his restored prairie and woodlands in the Town of Stockton.

Bio: Jerome is an experienced chief economist with a demonstrated history of working in the higher education industry. He is skilled in community engagement, economic research, policy analysis, and public speaking. He is a strong state and local public finance professional with a Doctor of Philosophy from Oklahoma State University's Spears School of Business. His fields are urban and regional economics, though his work tends towards rural communities and regional development. He has scholarly articles published or forthcoming in Social Science Quarterly, Journal of Economic Education and Economics Research, Journal of Regional Analysis and Policy, Papers in Regional Science, and Journal of Sports Economics.

I thank you for taking your time to review my credentials, and I look forward to hearing back from you.

Very Respectfully,

Jerome
