### Cart Placement:

- Always place your cart so that the arrow on the lid is facing the street. This places the cart in the proper position for emptying.
- The best placement is in your driveway, or next to it so that it is four (4) feet away from obstacles such as parked cars, mailboxes, and utility poles, including other carts.
- Another option is to place your cart in the gutter right next to the driveway if it is not a travel lane (this is recommended in areas with heavy parking).
- Carts can be placed in a cleared area of your terrace or the area between the sidewalk and the curb.
- Carts may be placed partially on the sidewalk where the sidewalk is adjacent to the curb, or where there is a narrow parkway as long as there is at least three (3) feet of sidewalk clear for passage (accessibility standard) and as long as it is less than eight (8) feet to the face of the curb.
- Where there is no curb and gutter, carts may be placed anywhere behind the pavement edge, in the shoulder area.
- Place your brown-covered garbage cart on the opposite side of the driveway from your green-covered recycling cart.
- If your cart is on private property, it will NOT be collected.
- The area between the cart and the street MUST be clear of obstacles.
- Do not place carts on top of snow banks.

**Improperly placed carts will NOT be collected.**

The Street Dept. will NOT collect garbage or recyclables that do not fit in your cart with the lid closed. Please DO NOT over stuff your cart, over stuffed carts do not allow for gravity to aid in the collection process and your cart may not empty completely.

Please remember the carts belong to the City and must remain at the property when you move. Please refrain from permanently painting or marking on carts and report any damage or theft to the Street Department at 346-1537.
